SUMMARY

Senior Frontend Engineer with 5+ years of experience building scalable, high-performance web applications using React, TypeScript, and modern frontend ecosystems. Proven track record of delivering responsive, production-grade UIs with a strong focus on performance optimization, maintainability, and user experience. Experienced in collaborating with cross-functional teams, mentoring engineers, and driving engineering best practices. Reduced UI bugs by 45% and improved feature delivery speed by 25% through architecture improvements and efficient development workflows.

KEY ACHIEVEMENTS

- Reduced UI bugs by 45% and improved PR merge time by 30%
- Accelerated feature delivery by 25% through cross-functional collaboration
- Saved 30–35 engineering hours per sprint using AI-assisted workflows
- Improved frontend architecture consistency by 40%

EXPERIENCE

Lead Engineer — Rapid Innovation LLP (Remote)

APRIL 2023 – JAN 2026

- Architected and delivered scalable, high-performance frontend applications using **React, TypeScript, HTML5, and CSS**, improving system maintainability and reducing architecture inconsistencies by 40%.
- Led development of **responsive, production-grade user interfaces**, ensuring seamless experience across devices and browsers.
- Collaborated closely with **backend engineers, designers, and product managers** to design and deliver high-quality features aligned with business requirements.
- Optimized frontend performance using **efficient rendering strategies, caching mechanisms, and code-splitting**, improving application responsiveness.
- Conducted **code reviews, enforced coding standards, and mentored developers**, improving code quality and reducing PR merge time by 30%.
- Debugged and resolved production issues proactively, improving system reliability and reducing UI bugs by 45%.
- Established reusable component systems and scalable frontend architecture, reducing repetitive development effort by 40%.
- Integrated AI-assisted development tools to enhance productivity, saving ~30–35 engineering hours per sprint.
- **Skills:** React, TypeScript, Next.js, JavaScript, Performance Optimization, Responsive Design, Frontend Architecture, CI/CD, Code Reviews, Mentorship, Agile, AI-assisted Development

Software Engineer — Rapid Innovation LLP (Remote)

JUNE 2021– APRIL 2023

- Developed **scalable and responsive UI components** using React, TypeScript, HTML5, and CSS, improving user experience and design consistency.
- Collaborated with cross-functional teams to deliver high-quality features in an Agile environment.

- Built and optimized frontend integrations with **REST APIs and GraphQL**, ensuring efficient data handling and performance.
- Implemented reusable component architecture and state management solutions, improving development efficiency.
- Contributed to debugging and resolving production issues, enhancing application stability.
- **Skills:** React, TypeScript, JavaScript (ES6+), Redux, GraphQL, REST APIs, Responsive Design, Component Architecture

Frontend Developer— Alnitek Innovative Solutions (Remote)

APRIL 2021 - MAY 2021

- Developed a **responsive no-code chatbot builder platform** using React and Material UI.
- Implemented intuitive drag-and-drop workflows to improve usability and reduce setup time.
- Delivered end-to-end frontend features, including build, test, and deployment interfaces.
- **Skills:** React, Material UI, JavaScript, Drag-and-Drop UI, Frontend State Management, UX Development

Web Developer— Bitmap Technology, Pune, M.H. (Internship)

JUNE 2019 - MAY 2020

- Built responsive websites using React.js, HTML5, CSS3, and JavaScript.
- **Skills:** React.js, HTML5, CSS3, JavaScript, Responsive Web Design

SKILLS

Frontend Development:

React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux, Redux Toolkit, React Query, Styled Components, Responsive Design, Performance Optimization

Backend Development:

Node.js, Express.js, REST APIs, GraphQL

Tools & Platforms:

Git, CI/CD, Webpack, Vite, Figma, Jira, Firebase, Supabase, Netlify, Render, SonarQube

AI Tools Used:

ChatGPT, GitHub Copilot, Cursor AI, Qodo (formerly Codium), Tabnine, Roo Code, Claude

EDUCATION

Sinhgad Academy of Engineering, Pune, M.H.

AUGUST 2017 – MAY 2020

Bachelor of Engineering (Computer Engineering)

Grade: 8.3/10 CGPA

Shri Sai Polytechnic, Chandrapur, M.H.

JULY 2015 - MAY 2017

Diploma In Engineering (Computer Engineering)

Grade: 80.88%
